

PREMIUM RANGE

# TRAMONTANA

Stimulates overall development of the plant

Soluble liquid (SL)

Balances soil structure

Influences vegetative growth

Fertigation

Foliar application

## Actions

Organic biostimulant that promotes the overall development of the plant, especially the root system, and stimulates microbial activity. The product's high concentration of organic material (fulvic acids) and active components makes it easier for the plant to assimilate the nutrients supplied.

## Guaranteed concentrations

Total amino acids (oligopeptides)	2% (w/w)
Free amino acids	2% (w/w)
Magnesium oxide (Mg <sub>2</sub> O) complexed with lignosulphonate	2,6% (w/w)
Organic material	43,2% (w/w)
Fúlvic acid	42,5% (w/w)
Organic carbon	39% (w/w)
pH	3-5,5

## Dosage

ALL CROPS	10 L/Ha	FERTIGATION
ALL CROPS	5 L/Ha	HYDROPONICS

## Effective content

20L

26 kg

1

Promotes root development and stimulates activity.

2

Stimulates overall development of the plant
